Applications/Limitations

1. This Certificate does not exempt the purchaser from his responsibility to ensure that this qualification is valid for his products within the requirements of the EN 545:2010 & ISO 2531:2009/Cor.1:2010.
2. Supply of the products as listed above shall be as per inspection documentation EN 10204 type- 3.1 or 3.2 requirements under the discretion of the Purchaser.
3. The re-qualification process shall be repeated if any essential changes are made to the production route or the manufacturing procedure. E.g. change in the final melting/refining process, a major change of the casting method, a major change of manufacturing equipment, welding procedure & process etc .
4. If production is carried out at different plants/locations, a separate qualification is required for each plant. This applies also for change of in-house to subcontractors or change of subcontractor for essential operations.
5. Welding, where permitted by relevant standard shall be carried out by qualified welders according to qualified procedures.
6. NDT operator qualification shall be as per NS- EN ISO 9712/equivalent based on the purchaser's requirements.
7. Changes to the system/Technical File has to be intimated and approved by DNVGL before implementation.

Terms and conditions

The Certificate is subject to the following terms and conditions:

- Product Liability rests with manufacturer, in case of damages caused by defective products.
- It is only valid for the product(s) listed above
- A visit shall be made to the manufacturer in case of changes to essential processes, or during re-qualification. Manufacturer shall inform the local DNV GL office for any changes made with respect to any design changes or Manufacturing processes.

The following may render this Statement invalid:

- Any deviation to application/limitation listed above.
- Changes or amendments to the referenced standard and Technical File
